# CISCO Professional Services Subscription

PS-Sub · formerly Lifecycle Services (LCS) · FY26 Services Offering

**Abilities at a Glance**

Seller conversation sheet · October 2026

SERVICES OFFERING

### Cisco Support

Keep it running

Standard / Enhanced / Signature. TAC, RMA, software updates, Cisco IQ insights. Not Professional Services.

SERVICES OFFERING

### PS-Subscription · this sheet

Govern, advise, measure

Ongoing outcomes, Digital Insights, named experts, 90-day plans, QBRs. Flexible consumption — not T&M.

SERVICES OFFERING

### PS-Transactional · SOW

Do the hands-on work

Defined-scope PDI / migrate / harden / LDoS. Preferred vehicle for high-frequency remediation. Do not fold into PS-Sub.

LIFECYCLE ABILITIES · PLAN → OPTIMIZE · SUBSCRIPTION CAN ADVISE. ASSIST. OR LEAD IN EACH PHASE

**1 Plan**
- Requirements & readiness
- Architecture strategy
- KPI / value baseline

**2 Design**
- Design review vs requirements
- Validated-design guidance
- Standards alignment (SA)

**3 Implement**
- Implementation planning
- Test plan / execute support
- Services as Code / IaC

**4 Migrate**
- Migration planning
- Cutover / NRFU guidance
- Post-migration support

**5 Operate**
- Day-2 assurance
- Change MOP review
- AMO / program governance

**6 Optimize**
- Health / resiliency assessments
- PSIRT & software strategy
- KPI snapshots / QBR

HOW PS-SUB IS PACKAGED

### 01 Outcome Services

LCS engine. Outcome Consulting + Digital Insights + PM. Priorities, baseline, analyze, recommend, action plan, implementation assist, KPI snapshots. 90-day plan and quarterly activity / artifact report.

### 02 Expert-as-a-Service

Named expert on a quoted technology. Consulting Engineer: design, implement, operate, KT. Solution Architect: vision, strategy, standards. Includes Cisco tools, analytics, and knowledge systems.

### 03 Attached Services

Product / family-specific consulting for the Services Term: onboarding, implementation, adoption, optimization. Not a one-shot PDI SOW.

FIVE-STEP CADENCE · CONTINUOUS

1 Baseline | 2 Analyze | 3 Recommend | 4 Execute | 5 Measure

**Engage the way the customer works**

| Advise Me | Do It With Me | Do It For Me |
|---|---|---|
| Guided | Assisted | Assured |

DIGITAL INSIGHTS · TELEMETRY + EXPERT JUDGMENT

- Config complexity, misconfig, inconsistency
- Customer config-standard audit and reporting
- Policy / design mapping to simplify support
- Field Notices and hardware lifecycle (EoS, LDoS, EoL)
- PSIRT Critical / High and crash-risk guidance
- Scalability vs verified limits; software version strategy
- Syslog service-impact risk; air-gapped collector option

OFFERING CATALOGUE EXAMPLES · RESIZE TO AVAILABLE CAPACITY

- Assessments — resiliency, architecture, health (EN / Sec / DC / Collab)
- Software management — PSIRT impact, bug scrub, version recommendations
- Architecture Management Office — weekly / biweekly governance
- Change & test — MOP review, test plan, validate-with-test
- Implementation / migration support — assist, not a full PDI SOW
- Knowledge transfer — workshops, runbooks, enablement
- Automation — Services as Code, digital twins, DevOps pipelines

BUSINESS OUTCOMES ON THE QUOTE

**Grow faster**

Digital transformation · new capabilities · CX · end-user experience · revenue

**Be stronger**

Reduce risk · compliance · enhance security · reputation / brand

**Deliver better**

Optimize productivity · reduce cost

90-DAY OPERATING CADENCE

Kickoff agrees activities and request format. Then 90-day plan → deliver → quarterly report / QBR → re-plan. New work is resized to remaining resources. Baseline → Analyze → Recommend → Execute → Measure, continuously.

KEEP THE MOTION CLEAN

**Use PS-Sub for**

Advisory, governance, architecture, KPI baselining, PSIRT / lifecycle insight, QBRs, named CE / SA, catalogue items that fit remaining capacity.

**Put on a PS-T SOW**

High-frequency hands-on, OS upgrades, hardening, LDoS refresh, transformation, incident response, third-party gear. Do not absorb into an existing subscription.

BOUNDARIES · QUOTE AND SERVICE DESCRIPTION CONTROL SCOPE

Cisco Confidential — Cisco and partner use

Supplements Cisco Support or Partner Support on covered products. Not T&M and not an hours bank. Cisco technologies only. "Outcome" does not guarantee a result. Delivery stops the last business day of the term. Digital Insights need data collection (or a quoted air-gapped collector). Scrum / Outcome Scale / EaaS are subscription add-ons. Using PS-Sub for RIS-style remediation requires CX Delivery + SVP path — default is a new PS-T engagement.

ARCHITECTURES: Networking | Data Center | Security | Collaboration | SP Mobility | IoT
